Washington, Oct. 19.—The working man will support a saving system which includes retention of a part of his weekly wages from his pay envelope if the system is understood thoroughly by him, Joseph F. Tinsley, manager of a loan works at Worcester, Mass., today told the American Bankers' Association. He urged adoption of such a plan throughout the country.

## DISAPPROVE FISHER'S PLAN TO STABILIZE THE DOLLAR

Washington, Oct. 19.—Professor Irving Fisher's plan to stabilize the dollar by diminishing or increasing the gold content of the dollar as prices fall or rise was adversely reported upon today by the Currency Commission of the American Bankers' Association. After a year's study, the commission found that the plan contained "grave dangers" and it recommended against memorializing congress in favor of changes in the monetary system suggested by the Yale economist.

"It is our conclusion," the commission reported, "that Dr. Fisher's plan, though interestingly and ably worked out, is wholly impractical and would involve grave dangers to the stability of our gold in any period of crisis since the plan calls for lightening the gold behind the dollar when prices fall and foreigners, foreseeing this, would draw down their balance and sell dollars short before the government could make the change."

The commission believed the plan would make "difficult, if not impossible," the maintenance of gold redemption in periods of rapidly rising prices. If adopted at this time, the commission asserted, it would work adverse hardship and perpetuate the suffering of all those receiving fixed incomes who have suffered from the rapidly rising prices.

"Had the plan been in operation at the outbreak of the war in 1914," the report continued, "it would have broken down as Dr. Fisher now admits. It could not have prevented the rise in prices of war-time and consequently most of the claims which Dr. Fisher had made must now be abandoned."

"The great economic evils of the war

have grown out of wasteful consumption and destruction, demoralization and interruptions of transportation and the withdrawal of many millions of men from production, the whole combining to create a scarcity of goods. No change in the monetary system could have prevented this evil. The plan therefore would not have been a remedy for social discontent and distress."

## For Coughs, Colds, Bronchitis, Try

Countless grave sicknesses are recognized by the medical profession as having their direct or indirect cause in a neglected cold or cough. Kerr's flax seed emulsion, Linoline, is most helpful. Medicine knows no safer healing agent for the inflamed mucous membranes of nose, throat and lung passages. Thus, while Linoline is fighting colds, coughs and bronchitis it is also nature's chief aid in restoring vitality.

## Release for Women who Suffer

The multitude of American women who suffer terribly day after day and year after year from ills peculiar to their sex is almost beyond belief,—yet there is hardly a town or hamlet in the United States wherein some woman, and often many, do not reside who have been restored to health from some of the worst forms of female ills, and often avoided operations by taking Lydia E. Pinkham's Vegetable Compound.

### These Two Women Tell of Their Experience.

Carrollton, Ky.—"I suffered almost two years with female weakness. I could not walk any distance, ride or take any exercise at all without resting. If I swept the floor or did any kind of work it would bring my sickness on. I was weak and languid, had no energy, and life was a misery to me. I was under the care of a good physician for several months and tried other remedies. I had read of Lydia E. Pinkham's Vegetable Compound and decided to try it. After taking twelve bottles I found myself much improved and I took six more. I have never had any more trouble in that respect since. I have done all kinds of work and at present am an attendant at a State Hospital and am feeling fine. I shall always recommend your Vegetable Compound."—LILLIAN THARP, 824 South 6th Street, Carrollton, Ky.

Onalaska, Wis.—"Every month had such pains in my back and lower part of stomach I could not lie in bed. I suffered so it seemed as though I would die and I was not regular either. I suffered for a year and was unfit to do my housework, could only wash dishes once in a while. I read an advertisement of what Lydia E. Pinkham's Vegetable Compound had done for other women and decided to try it. It surely did wonders for me. I have no pains now and can do my own housework without any trouble at all. I will always praise your medicine as I do not believe there is a doctor that can do as much good for female weakness as can Lydia E. Pinkham's Vegetable Compound and you may use these facts as a testimonial."—MRS. LESTER E. WARNER, R. 1, Box 90, Onalaska, Wis.
